

SUMMARY

Detail-oriented Data Analyst with **6+ years of combined academic and internship experience** in Excel, SQL, Python, and data cleaning. **Experienced in transforming and validating datasets, executing SQL queries, and applying statistical techniques** to support business decision-making. **Proven ability to maintain accuracy, accountability, and collaboration with cross-functional teams** to deliver reliable, high-quality data solutions.

ANALYTICS EXPERIENCE

Data Analyst Intern – KGS Technology Group | Aug 2025 – Present

- Cleaned and validated client datasets using **Excel, SQL, and Python**, improving reporting accuracy by **15%**.
- Executed SQL queries to extract and aggregate data, **cutting analysis time by 30%**.
- Automated preprocessing workflows, **boosting efficiency by 20%**.
- Collaborated with project managers to resolve discrepancies, ensuring **error-free outputs**.

Procurement Spend Analysis Dashboard – Self-Initiated Project | 2025

- Built a **Power BI dashboard** analyzing ~15k vendor transactions, enhancing visibility into spending.
- Automated ETL with **Excel Power Query and SQL**, reducing prep time from hours to minutes.
- Modeled **6% potential cost savings** through vendor consolidation.

Graduate Academic Projects – Gannon University

Predictive Maintenance Analytics | Jan 2025 – Apr 2025

- Developed ensemble ML models (**Random Forest, XGBoost, KNN**), achieving **98.5% accuracy** in predicting pump failures.
- Improved reliability with **data cleaning and validation techniques**.
- Presented findings at **Celebrate Gannon 2025**, earning recognition for actionable insights.

Real-Time Road Management System for Winter Maintenance - Research Case Study

- Integrated telematics & image data, **improving road monitoring accuracy by 25%**. (weather + image + telematics).

IPL Performance Analytics Dashboard

- Created 3 Jupyter dashboards for **real-time** player efficiency comparisons.
- Cleaned raw datasets with Excel and SQL, applying **data storytelling** for presentations.

Travel Tales Analytics Platform

- Gathered user requirements, cleaned and analyzed survey data using Python, and led testing & validation to deliver actionable recommendations.

EDUCATION

- **M.S. in Data Science**, Gannon University, Erie, PA
Graduated: May 2025 | GPA: 3.9 / 4.0
 - Relevant Coursework: Data Mining, Big Data Analytics, Database Systems
 - **Capstone**: Predictive maintenance project achieving **98.5% accuracy** with ensemble models on AWS SageMaker.
- **B.E. in Electronics & Communication**, Chalapathi Institute of Technology, India
Graduated: April 2023

CORE SKILLS

- **Analytics & Reporting**: Financial analysis, KPI reporting, trend analysis, ad hoc reporting, data validation
- **Tools**: Excel (Pivot Tables, Power Query, VLOOKUP/XLOOKUP), Power BI, Tableau
- **Programming & Databases**: SQL (Oracle Certified), Python (Pandas, NumPy, Scikit-learn)
- **Cloud & Big Data**: AWS SageMaker, Git, Jupyter Notebook
- **Business Skills**: Data storytelling, Process automation, Stakeholder collaboration

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Oracle Certified Associate: Oracle Database SQL
- Oracle Certified Associate: Java SE 8 Programmer
- AWS Cloud Fundamentals
- Prompting using ChatGPT & Gemini
- Public Speaking
- Google Data Analytics Certificate (*in progress*)
